ErryGo

Handling Everyday Tasks

ErryGo

Building India's first AI-powered local errands app

THE PROBLEM

Millions of everyday tasks fall between:

Do it yourself VS **Hire a professional**

Examples:

- **Visit a tailor**
- **Get an Item repaired**
- **Wait in a queue**
- **Find a product across markets**
- **Accompany an elderly person**
- **Rearrange items**

Current Platforms are built for:-

- ✗ **Delivery (Blinkit, Zepto, Porter)**
- ✗ **Skilled Services (Urban Company, YesMadam)**

But not for everyday errands.

THE SOLUTION

ErryGo

An **AI-powered** errands marketplace:

Customers simply describe a task.

- Understands the Request
- Asks Clarifying questions
- Prices the Task
- Assigns a Partner
- Tracks Execution
- Ensures Completion

Errands executed through a network of on-demand ErryGo partners.

Market Shift
Consumers increasingly pay for convenience.

Workforce Shift
India's gig workforce is expanding rapidly.

Technology Shift
AI can now structure and coordinate unstructured tasks.

Opportunity
Create India's default platform for everyday tasks.

ErryGo

Why Convenience Wins

Consumers increasingly pay to save time, effort and mental load.

1) CONVENIENCE HAS EVOLVED FROM MOVING PEOPLE TO COMPLETING TASKS.

Uber	Swiggy	Blinkit	Urban Company	ErryGo
Transportation	Food	Products	Professionals	Tasks

2) MARKET VALIDATION: CONSUMERS ARE ALREADY PAYING FOR CONVENIENCE

QUICK COMMERCE

- 10-minute delivery
- Same-day delivery
- Scheduled delivery

blinkit zepto

HOME SERVICES

- Cleaning
- Repairs
- Beauty Services

Urban Company yesmadam

HYPERLOCAL ASSISTANCE

- Carrying bags
- Household help

Snabbit CarryMen

3) THE INSIGHT

THE CONSUMER NO LONGER PAYS ONLY FOR PRODUCTS. → **THE CONSUMER PAYS TO AVOID EFFORT.**

Every major convenience platform has succeeded by removing friction from daily life.
ErryGo extends this trend to everyday task execution.

TIME HAS BECOME MORE VALUABLE THAN MONEY FOR URBAN CUSTOMERS.

Consumers increasingly outsource smaller and more frequent tasks.

ErryGo

India's Gig Worker Landscape

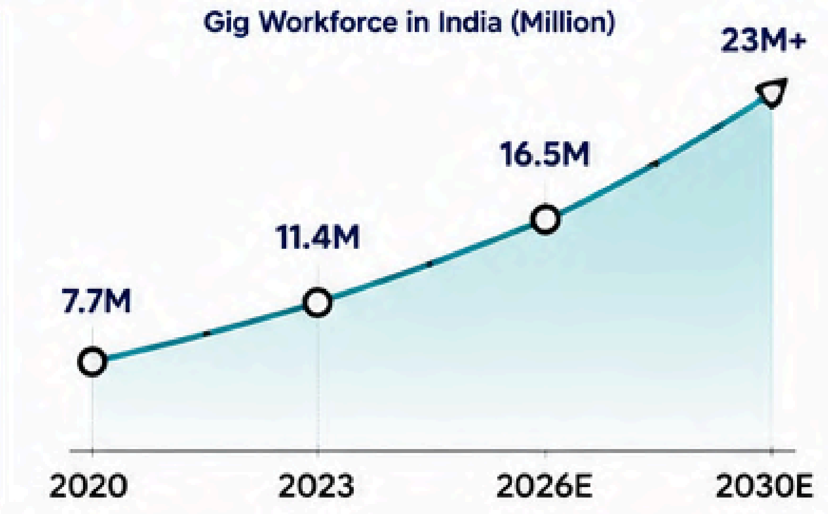
Millions of Indians are already participating in flexible, platform-driven work.

1) GIG WORKFORCE IS GROWING RAPIDLY

7.7 Million
Gig workers in India today

23+ Million
Expected by 2030

Source: NITI Aayog



- **80%+** Come from Tier 2-4 cities & towns
- One of the fastest growing workforce segments in India.
- Large, young and digitally native workforce

2) THRIVING PLATFORM ECOSYSTEM ALREADY EXISTS

zomato · SWIGGY · blinkit (A ZOMATO COMPANY) · zepto · PORTER · Urban Company

GIG WORKFORCE CATEGORIES

Delivery · Logistics · Services · Commerce · Home Assistance

Large Workforces already active

zomato
1M+ delivery partners

Swiggy
1M+ delivery partners

Urban Company
40,000+ Professionals

3) WHY WORKERS JOIN GIG PLATFORMS?

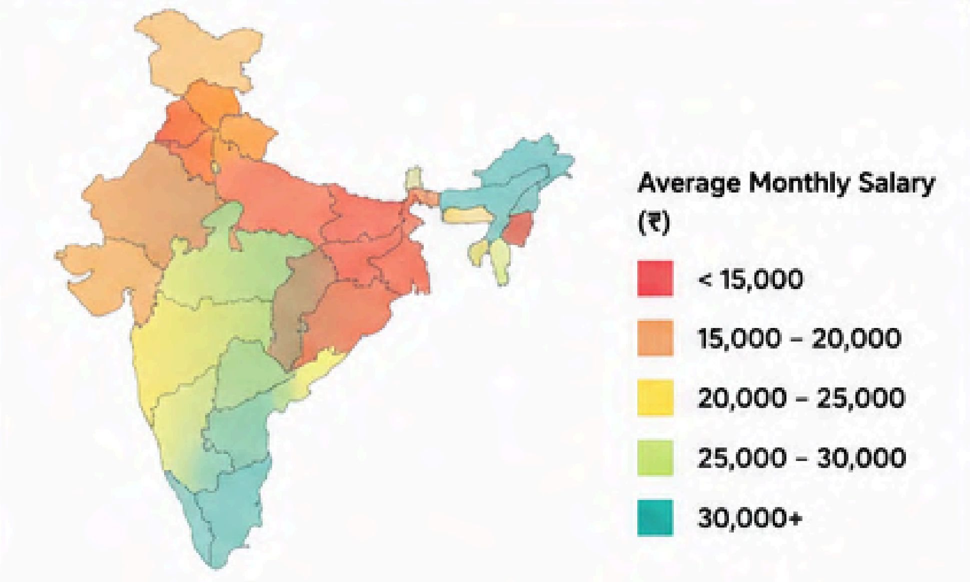
- **Flexible hours** — Work when you want.
- **Additional Income** — Supplement existing earnings.
- **Low entry barriers** — No degree or specialized skills required.
- **Fast Onboarding** — Start earning quickly.

4) RISING INCOME ASPIRATIONS

Average monthly salaries across many Indian states remain between

₹15,000 – ₹30,000.

Gig work provides an accessible pathway to higher earnings.



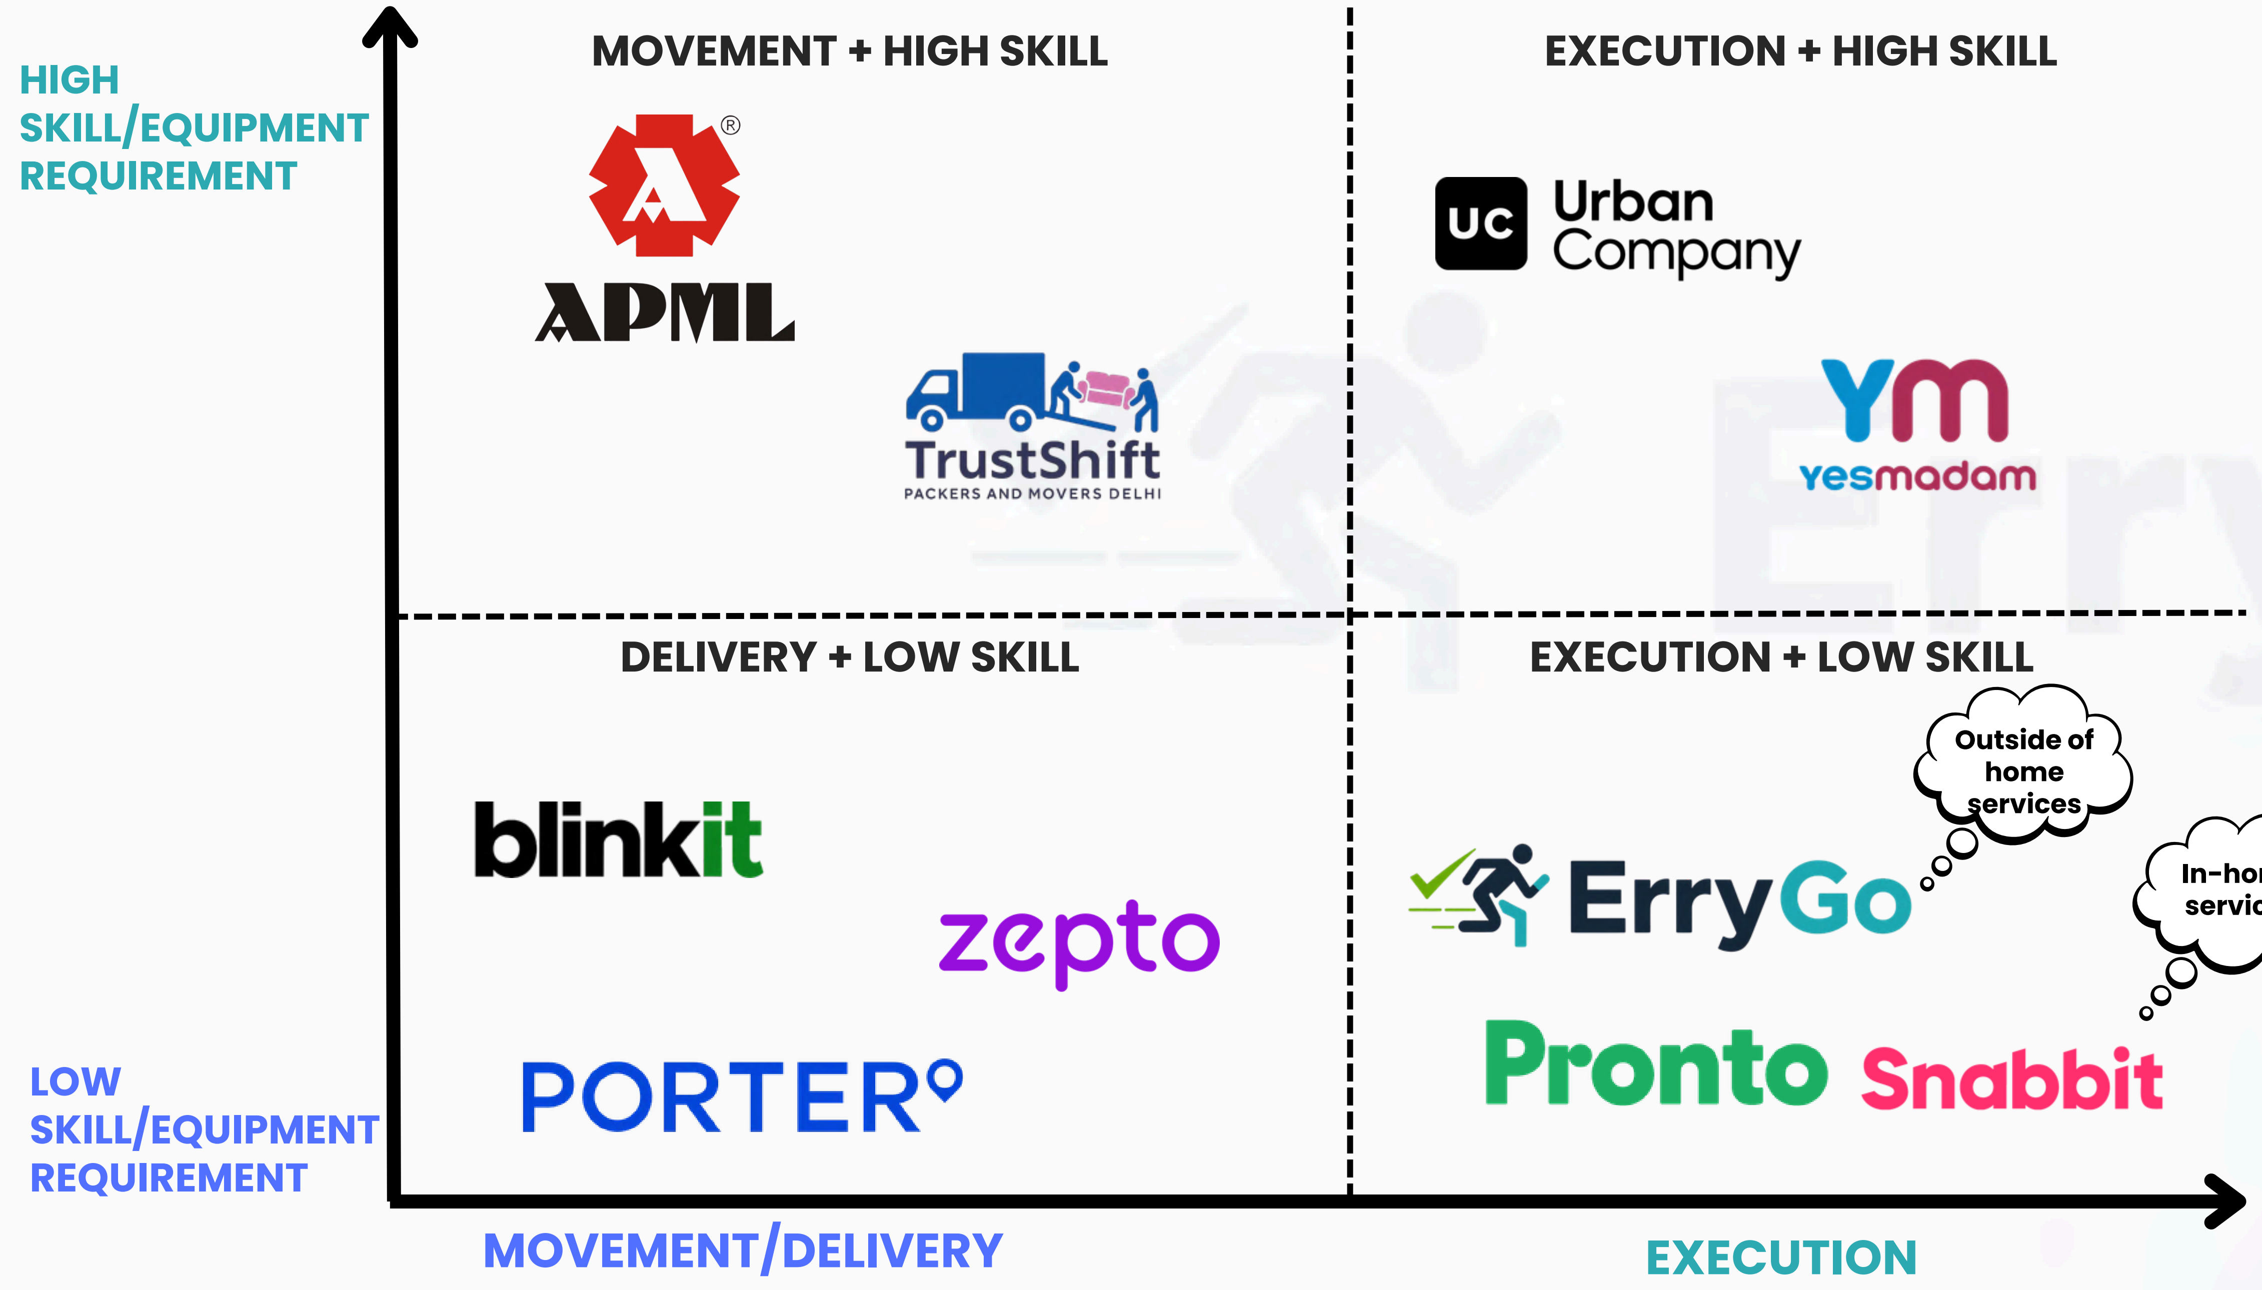
5) KEY INSIGHT

INDIA'S WORKFORCE IS INCREASINGLY CHOOSING FLEXIBILITY OVER TRADITIONAL EMPLOYMENT.

ErryGo

Market landscape & Competitive positioning

Existing platforms solve movement, delivery or professional services. ErryGo solves execution.



1) Existing Platforms

Deliver:

- Products
- Goods
- Professional Services

2) The Missing Layer

Millions of everyday tasks remain unmanaged.

3) ErryGo

Organizes task execution itself.

AI-powered marketplace that understands, assigns, tracks and completes everyday tasks end to end.

ErryGo
Task Completed!

ErryGo

AI matching + Routing + Quality control +Support

↓

ErryGo Partner (EP)

Earns ₹Y

Every completed task generates revenue while creating income opportunities for local Gig workers.

UNIT ECONOMICS (PER ORDER)

Customer price (AOV)	₹139
EP Payout	₹101
Revenue	₹38
Gross Margin	~27%

MONTHLY ECONOMICS

CONSIDERING 10K ORDERS/MONTH

GMV	₹41 lakh
Payout to EP	₹30 lakh
Gross profit	₹11 lakh

All numbers are illustrative and may vary with time.

REVENUE STREAMS

CURRENT:

- Core marketplace fee
- Surcharge fee

NEAR TERM:

- Enterprises & B2B services
- Subscription plans
- In-app advertisements

LONG TERM:

- Vendor empanelment fee

ErryGo

Growth Strategy

Phased expansion to build density, trust and profitability

PHASED MARKET EXPANSION

1 Phase 1
Local Dominance

Vasant Kunj
(Pilot)

- Build strong partner network
- Refine operations & SLAs
- Achieve product–market fit
- Create brand trust & credibility

2 Phase 2
Geographic Expansion

South Delhi
(Neighbouring Areas)

- Expand to adjacent localities
- Increase partner base & categories
- Strengthen repeat user base
- Improve unit economics

3 Phase 3
City & NCR Expansion

Delhi NCR
(Scale)

- Expand to NCR cities
- Build category leadership
- Strengthen technology & automation
- Drive profitability at scale

KEY GROWTH LEVERS

Acquire Customers

- Hyperlocal marketing & offline presence
- Targeted digital campaigns
- Referral & loyalty programs
- Partnerships with RWAs & communities

Build Supply Network

- Onboard and train local partners
- Incentivize early movers
- Ensure quality & reliability
- Expand task categories gradually

Drive Retention & Frequency

- Seamless experience & tracking
- On-time task completion
- Subscription / membership models
- Personalized & AI-based recommendations

Our Goal: Become the default platform for everyday tasks in every neighborhood.

ErryGo

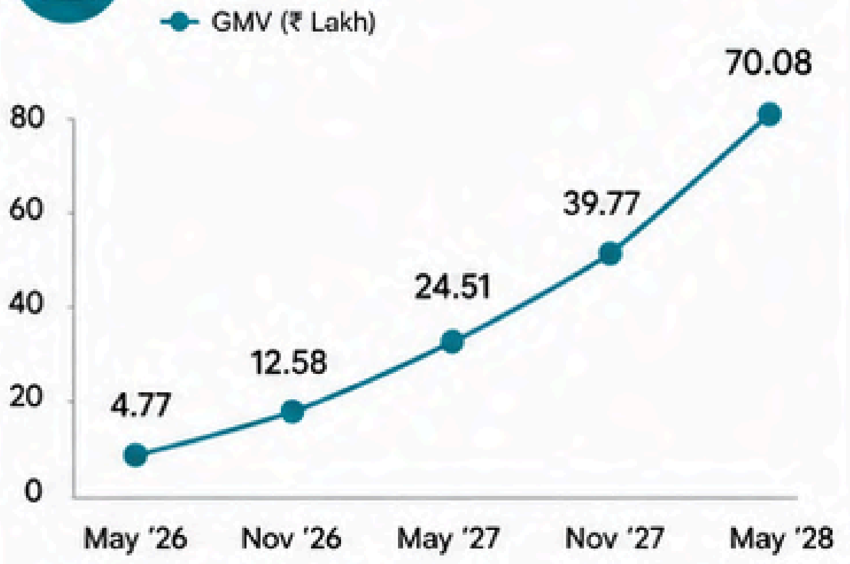
Financial Projections

24-month outlook based on our financial model (May 2026 – May 2028)

KEY METRICS AT MONTH 24 (May 2028)

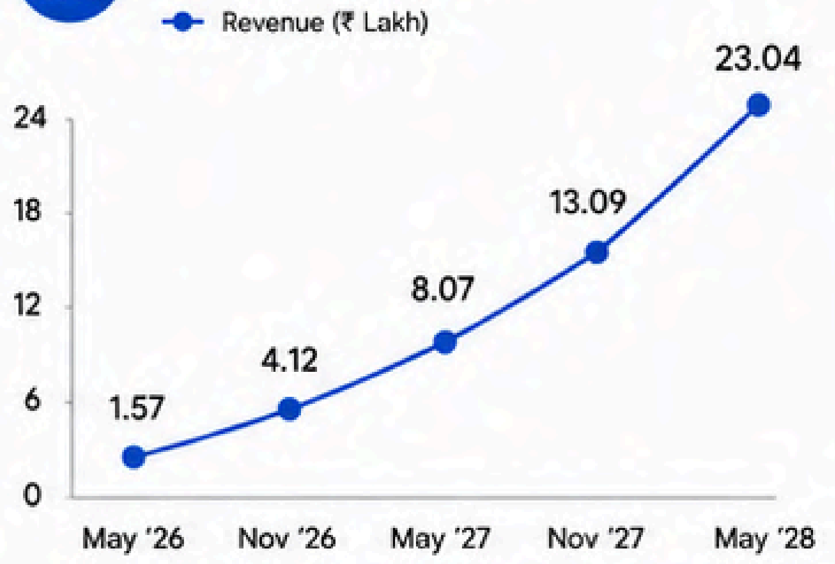
Localities Covered	GMV	Revenue	EP Payouts	Orders / Day	Net Profit
80 Localities	₹70.08 L Per Month	₹23.04 L Per Month	₹47.04 L Per Month	16,000 Orders	₹28.53 L Per Month

GMV (₹ Lakh)



CAGR (May '26 – May '28): 283%

Revenue (₹ Lakh)



CAGR (May '26 – May '28): 285%

Orders / Day

CAGR (May '26 – May '28): 287%

Localities Covered

CAGR (May '26 – May '28): 137%

KEY ASSUMPTIONS

- Average Order Value (AOV): ₹146
- Average EP Payout per Order: ₹98
- Average Margin per Order: ₹48
- Orders per Day at Month 24: 16,000
- Expansion to 80 Localities
- Period Covered: May 2026 – May 2028

Our Goal: Achieve profitability at scale while becoming the default platform for everyday tasks.

ErryGo

Go-To-Market Strategy

Hyperlocal focus. Partner-first approach. Trust at the core.

OUR GTM PILLARS

Hyperlocal Focus
- Start small, win local
- Deep understanding of customer needs
- High service reliability

Partner-First Approach
- Onboard and empower local taskers (EPs)
- Training, support and incentives
- Strong partner network = better service

Community & Trust Building
- Local presence & engagement
- Word-of-mouth & referrals
- Transparent pricing and support

Digital + Offline Marketing
- WhatsApp, Instagram, and local groups
- Pamphlets, standees and local tie-ups
- Referral campaigns & loyalty offers

Data-Driven Growth
- Track key metrics
- Optimize CAC, repeat rate & LTV
- Iterate, learn and scale

CHANNEL ROADMAP

Phase 1 — Launch (0 – 3 Months)
- Launch in Vasant Kunj (Pilot)
- Onboard local taskers (EPs)
- Create WhatsApp community
- Drive initial traction & feedback

Goal: Product-Market Fit

Phase 2 — Build (4 – 9 Months)
- Expand to nearby localities
- Increase partner base & categories
- Launch app & streamline ops
- Local marketing & partnerships

Goal: Scale & Retention

Phase 3 — Expand (10 – 18 Months)
- Expand across South Delhi
- Strengthen tech & automation
- Improve unit economics
- Build brand trust & recognition

Goal: Market Leadership

Phase 4 — Scale (19 – 24 Months)
- Expand to NCR cities
- Category leadership
- Strategic partnerships & B2B
- Drive profitability at scale

Goal: Sustainable Profitability

KEY METRICS WE WILL TRACK

Demand
Orders / Day, AOV, Repeat Rate

Supply
Active Partners, Partner Retention

Economics
GMV, Revenue, Margin per Order, Take Rate

Customer
NPS, Ratings, Referral Rate

Growth
CAC, LTV, Payback Period

Our Goal: Build the most trusted, efficient and scalable errands platform for every neighborhood.

ErryGo

Key Recommendations

Strategic priorities to build the leading hyperlocal errands platform in India

OUR STRATEGIC RECOMMENDATIONS

1 Hyperlocal First
Win density before expanding geography

- Focus on deep penetration in existing localities
- Achieve high tasker density for faster fulfilment
- Build strong brand recall in target neighborhoods

Outcome: Stronger network effects and lower CAC

2 Build Supply Before Demand
Strong supply ensures seamless experience

- Continuously onboard and train errand partners (EPs)
- Maintain high partner liquidity across categories
- Incentivize top-performing partners

Outcome: Better service reliability and customer retention

3 Increase Repeat Usage
Turn one-time users into loyal customers

- Introduce memberships and loyalty programs
- Run referral incentives for customers and EPs
- Personalized offers based on usage behavior

Outcome: Higher repeat rate and lifetime value (LTV)

4 AI-led Matching & Ops
Use technology to improve speed and efficiency

- AI-powered task allocation for fastest fulfilment
- Route optimization to reduce time and cost
- Predict demand patterns for better planning

Outcome: Lower fulfilment time and operational cost

5 Expand SKU Gradually
Start focused, expand with validated demand

- Begin with high-frequency, high-utility errands
- Expand to adjacent categories based on data
- Add long-tail services as network matures

Outcome: Stronger unit economics and scalable growth

EXECUTION PRINCIPLES

Data-Driven Decisions
Track, measure and iterate continuously

Partner Success First
Empowered partners drive customer delight

Trust & Quality at Core
Safety, reliability and quality in every task

Profitable Growth
Focus on sustainable unit economics

EXPECTED IMPACT (24 MONTH OUTLOOK)

3.5x	3.1x	87%+	28.53 L
GMV Growth	Order Growth	Repeat Rate	Monthly Net Profit

Our North Star: Build the most trusted, efficient and scalable errands platform that becomes the default choice for every household.

ErryGo

Risks & Mitigation

Anticipating challenges. Building resilience. Staying ahead.

KEY RISKS AND OUR MITIGATION STRATEGIES

Risk Category	Risk Description	Potential Impact	Mitigation Strategy
Supply Risk	• Insufficient or unreliable supply of errand partners (EPs) in new or low-density areas • High partner churn affecting task fulfillment	**High** Delayed tasks, poor CX, revenue loss	• Strong onboarding & training programs • Partner incentives and performance bonuses • Maintain healthy partner liquidity across categories
Demand Risk	• Lower than expected adoption in new localities • Seasonal fluctuations in demand	**Medium** Slower growth, higher CAC recovery time	• Hyperlocal marketing and community building • Referral incentives & first-order offers • Data-driven targeting and demand stimulation
Quality & Trust Risk	• Inconsistent service quality by EPs • Safety or reliability issues impacting trust	**High** Loss of trust, negative ratings, reduced repeat usage	• Strict verification and background checks • Ratings, reviews & feedback loops • SOPs, training and continuous monitoring
Financial Risk	• Rising CAC impacting unit economics • Higher than expected operational costs • Delayed break-even	**Medium** Margin pressure, longer path to profitability	• Focus on organic growth & referrals • Optimize marketing spend & improve LTV • Continuous cost optimization & automation
Regulatory Risk	• Changes in local regulations or compliance requirements • Data privacy and safety compliance	**Low – Medium** Operational disruptions, penalties	• Stay updated with local regulations • Ensure full compliance with labor and data laws • Legal reviews and policy frameworks

Our Approach: We proactively identify risks, build strong systems, and adapt quickly to ensure sustainable and profitable growth.

Our Commitment: Build trust. Stay compliant. Operate responsibly. Scale sustainably.

THANK YOU

"The strongest marketplaces
aren't built by adding more services.
They're built by solving one customer problem
exceptionally well."
